Just To You,

To trust another person to love your child & raise her with everything you wish that you could give her is a very difficult decision. You will always be the person who carried her for nine months just under your heart. The person who brought her into this world. You will always be the person that gave her life and loved her so much that you wanted to make sure that all of her dreams came true. We hope to be the family that makes this happen for you & for her. We promise to make sure that all of her dreams come true, to love her unconditionally, support her, guide her, give her an education, a belief & faith in God, siblings to play & grow with, to give her a wonderful home filled with laughter, and most of all the knowledge that we are always here for her. We also want to welcome you into our lives and hearts. We hope to have a strong bond with you and her birth family. A child can never have too many people who love & support them.

We are very excited to be on this journey with you and are so thankful that you are considering us to be blessed with parenting your baby & becoming a part of our family yourself. We know all of the joy and sometimes struggles parenthood brings. Our family can not wait to welcome another child into it. We will love your baby unconditionally and for who she is. We will treasure every milestone, every smile, every laugh, and all of the joy she will bring into our lives.

You may be asking what brought us here to choose adoption? We truly feel that someone is missing from our family, that we are incomplete. There is a piece of our hearts that is reserved for our fourth child and we are deeply yearning to fill this empty spot. Becoming parents is the best thing that we have ever done & the most important part of our lives. Simply, we love being a family and feel we have more love to give to another child. We truly believe that God has led us down this path that has brought us here today with you reading this. We truly believe that adoption is the path we are meant to take to make our family complete.

The pages you are about to look at are a short story of our lives, it is impossible to show you everything in a few short pages. Please know these pages were put together in order to provide you with an intimate look into our family and life from the true depths of our hearts.

Thank you for reading our letter, looking at our profile, and considering us. You are the answer to our prayers and we hope that we are the answer to yours. Our dream of completing our family is not possible without the wonderful gift of adoption. We hope that we can give you the gift of comfort and the knowledge that you are making the best decision for both you and your baby. We can not wait to continue on this journey with you. We would consider it an honor to be chosen by you to raise and love your child as our own. To be able to give her everything you wish for her. You are in our hearts, our thoughts, and our prayers as you make this very difficult decision.

With Love & Sincerity,
Sherry + Jason

HOME IS WHERE
THE *heart* IS

Welcome Into Our Family, Our
Hearts, Our Home.....

Jason through Sherri's eyes....

Jason amazes me every day with the love and dedication he shows to his family. I have never seen a father who loves his children more. No matter how busy he is or what else is going on he always makes time to play with the kids and includes them in his day to day activities. Jason owns his own logging company and has earned a reputation as a very honest & hardworking business man.

I met Jason on the school bus when my mother & stepfather purchased a new home. I will never forget how obsessed I was with his beautiful green eyes and smile. Of course we were just teenagers and lost touch when he moved to go to college. Years later we ran into one another while I was visiting friends and here we are 12 years later celebrating our tenth wedding anniversary!

It is very important to Jason that he does his best at whatever the task at hand is. He is a very honest & kind person, always willing to help out other people. Jason enjoys socializing and can carry on a conversation for hours. In his down time he enjoys being outside hunting, fishing, hiking, or other activities.

Jason grew up as the youngest child of three siblings in the same home his parents live in now. He is very close to his parents who are truly amazing people.

I truly feel that I could not have chosen a better man to have a family and share my life with.

Sherri through Jason's eyes....

Sherri is the most loving, caring, sincere person that I have ever met. She would do anything for anyone regardless of her own needs. She makes me want to be a better person.

Our children are truly the center of her world and what makes her truly happy. Being a mother is truly who she was meant to be. I also know that she will always be there to support my dreams and that I will always be able to count on her. She is truly a wonderful wife and mother.

Sherri's friends and family are also a very important part of her life. She works hard to make sure that everyone in her life knows that they matter. She has had many of the same friends since middle school and is always open to making new friends. She believes that everyone has good qualities and there is never a reason to treat another person badly.

Sherri's parents divorced when she was eleven and her mother later remarried her stepfather. She has two brothers and two step siblings. She remains close to her parents and siblings.

I rarely ever see Sherri get mad as she is probably the calmest person I have met. She likes to think everything through before reacting and is very good about seeing both sides of every situation. She is also a very patient person. Sherri is truly the heart of our family.

Andrew

Hi! I'm Andrew and I am ten years old. I can not wait to have a little sister or brother to help care for and play with. My favorite things are riding four wheeler, fishing, playing outside, baseball, football, reading, hiking, building things, video games, hunting, swimming, riding bike, & our pets. I want you to know that my parents are great parents and I love them very much.

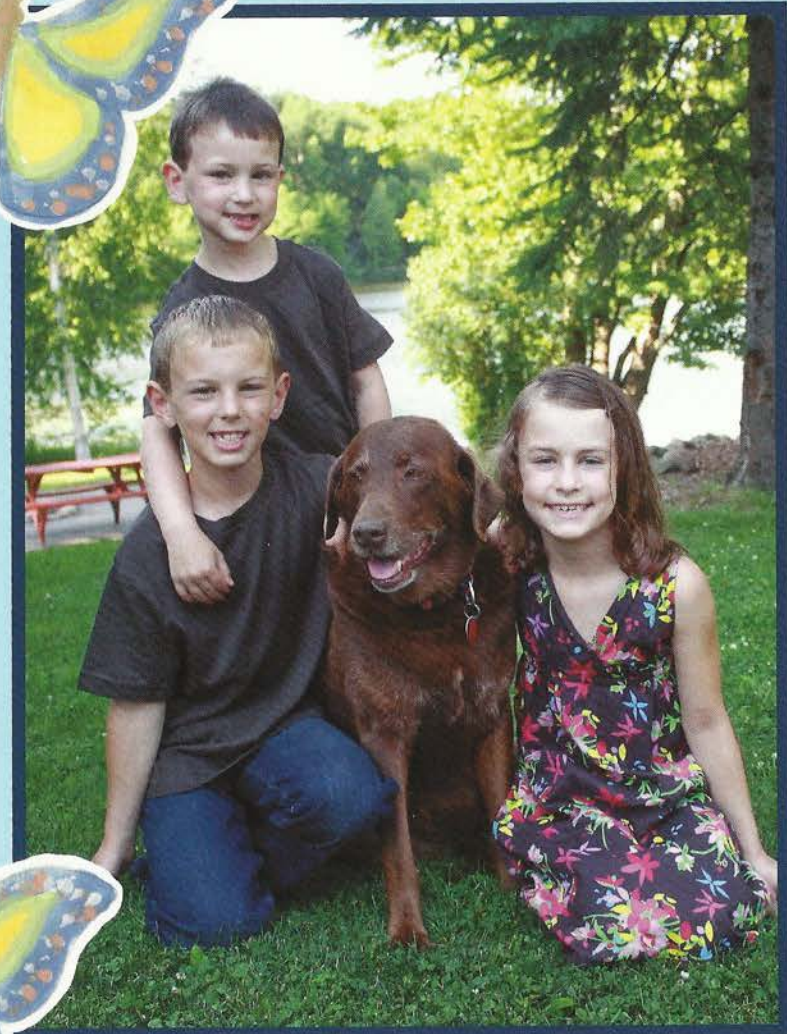

Katelyn

I'm Katelyn and 8 years old, but I like to be called Kate. I am very excited about being a big sister & have been practicing a lot. Secretly I am hoping for a sister so I have someone to play barbies with. My favorite singer is Taylor Swift. I love to dance, sing, play with dolls, be outside, do gymnastics, play on the monkey bars, be with my friends, spend time with Grandma, read, watch movies, eat ice cream, and spend time with my family.

Nickolas

My name is Nickolas and I am 6 years old. I love making people laugh! My favorite things are playing with cars, fishing, catching frogs, candy, swimming, being outside, sledding, making forts, army men, helping my dad, holidays, and my blanket "crunchie." I think being a big brother would be really neat!

Our furry family members

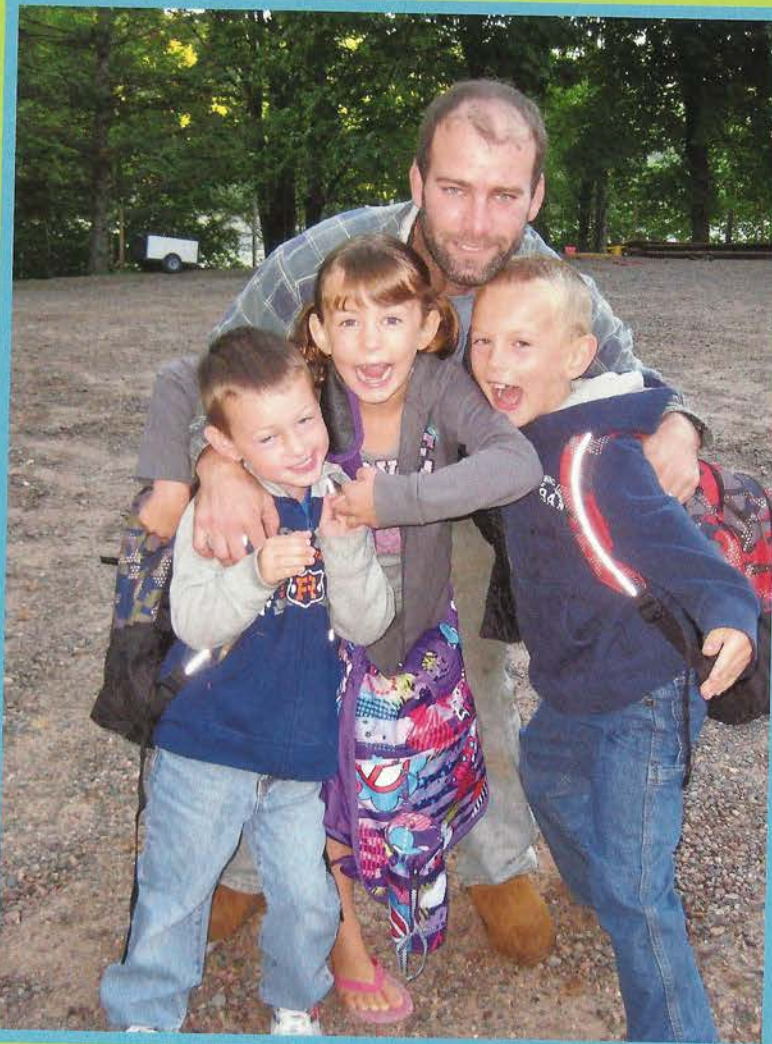

We believe pets add love to our family and teach our children about caring for others and responsibility. We have two laborador retriever dogs, a tabby cat, fish, hermit crabs, and a lizard. Occasionally the kids collect turtles, frogs, toads and other creatures they enjoy caring for & learning about until it is time to let them go.

Holiday Traditions:
 For Valentines Day our parents help us make cards to send out for our friends & family saying how much we love them. Every Easter mom hides a golden egg and whoever finds it gets an extra surprise, plus the Easter Bunny hides baskets for us. We also go to church that morning & Grandma's for lunch. We love the 4th of July because sometimes we have a party at our house & all of our friends & family come. There is also a parade down the road from us with other family activities. On our lake everyone decorates thier boats for a contest. In October we go to the neighbors for a huge Halloween party with tons of kids and thier parents. We also have a party at school & go trick-or-treating. Aunt Misty always helps us carve our pumpkins. On Thanksgiving all of our family comes over for a huge meal. Christmas is our favorite! Santa comes and leaves presents if we are good, we have even seen him! Every year we go to Grandma's before Christmas to decorate & bake cookies. We love this! Mom also lets each of us kids decorate our very own tree for our bedrooms. The tree in the living room we pick out & decorate together. Mom always gets our picture to put on holiday cards. Mom also likes to get us special Christmas pajamas. We love holidays & all of the traditions we have that make them so special! We can not wait to share them with our new sibling!

WITH THIS *Ring* I THEE WED

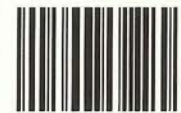

Over a decade ago we promised to love and cherish each other for the rest of our lives. We are so thankful for where we are today and have been so blessed in our life together. Our love and relationship grow stronger each day. With the support of our family and friends we have begun this new journey together to welcome another child into our family. We thank you so much for taking the time to look through our pictures and we hope that it gives you a glimpse into our family and the life we share.
